SUNUŞ

İstihdam ve işsizlik konusu günümüzde gelişmiş ve gelişmekte olan ülkelerin ortak sorunudur. İstihdam sorununun çözümü, ülkelerin istihdam politikalarından sorumlu organlarının doğru politikalar oluşturarak alacakları kararları istikrarlı bir biçimde uygulamalarına bağlıdır. İstihdam ve işsizlik konusunda doğru ve etkili politikaların oluşturulmasında, sağlıklı ve sürekli bilgi toplamanın önemi büyüktür.

Ülkemizin sorunlarının başında da istihdam ve işsizlik gelmektedir. İş ve İşçi Bulma Kurumu'nun, istihdam hizmetlerinin geliştirilmesi ve işsizliğin azaltılması konularında daha etkin bir yapıya ulaştırılması amacıyla "Türkiye İş Kurumu Genel Müdürlüğü'nün Kuruluş ve Görevleri Hakkında Kanun Tasarısı" hazırlanmış ve Türkiye Büyük Millet Meclisi Başkanlığı'na sunulmuştur.

Ülkemizin en önemli kaynaklarından biri olan işgücünün yakından izlenmesi, istatistiki bilgilerin toplanması, analiz edilmesi, gerekli birimlere ulaştırılması, insan gücü planlamasına yönelik çalışmalar yapılması, işgücü piyasası kararlarının etkinliğinin artırılması giderek daha fazla önem kazanmaktadır. Kurumumuz tarafından yürütülmekte olan "İstihdam ve Eğitim Projesi" içinde işgücü piyasası verilerinin kapsamının geliştirilmesi, bu verilerin analizinin desteklenmesi ve dağılımının daha iyi hale getirilmesi amacıyla "İşgücü Piyasası Enformasyon Sisteminin Geliştirilmesi" bir alt bölüm olarak düşünülmüş ve bu çalışmalar Devlet İstatistik Enstitüsü bünyesinde başlatılmıştır.

Kurumumuzun 1994 yılında yaptığı çalışmaları gösteren "1994 İstatistik Yıllığı", 1994 yılında Kurum aracılığı ile iş isteyenlerin, açık işlerin, yıl içinde işe yerleştirilenlerin ve yıl sonundaki işsizlerin çeşitli yönlerden görünümleri ile geçmiş yıllarla ilgili karşılaştırmalı bilgileri içermekte ve her yıl olduğu gibi bu yıl da kullanıcıların hizmetine sunulmaktadır.

1994 İstatistik Yıllığı'nın istihdam ile ilgilenen kişi ve kurumlara yararlı bir kaynak oluşturacağı ve bu alandaki boşluğu bir ölçüde dolduracağına inanıyoruz.

Önceki yıllara ait çalışmalarımız ile 1994 yılına ait daha ayrıntılı bilgi almak isteyenlerin, Kurumumuz APK Daire Başkanlığı Bakanlıklar / ANKARA adresine başvurmaları yeterlidir.

Saygılarımla.

PREFACE

Employment and unemployment are the common problems of developed and developing countries. The solution of this problem lies in accurate policies to be applicated by institutions which are responsible for decisions to bring in matter of employment policies. Implementation of accurate and effective policies in this regard requiring sound and perpetual informations, is of primordial importance.

Employment and unemployment are also the basic problems of our country. In order to ensure an effective structure for the development of employment services as well as the reduction of unemployment, the Turkish Employment Organisation has prepared and submitted to the Presidency of Grand National Assembly a "Draft of Law Related to the Institution and Functions of the General Directorate of the Turkish Employment Organisation".

It is obvious that the most important activities to be performed consist in: a) closely observation of man power, the most important source of our country, b) collection, analysis and dissemination of statistical information, c) realization of works related to manpower planning, d) actions emphasizing the effectiveness of labour market decisions. Within the scope of the "Employment and Training Project" implemented by our Organisation take place the development of manpower's datascope, the support provided for their analyses and as subcomponent the "Development of Labour Market Information System". Related works have started within the State Institute of Statistics.

Contents of the "1994 Statistical Yearbook" edited by our organisation, are information about job seekers, vacant jobs and job placements, general survey about unemployed workers, different employment features and comparative data.

We hope that our "1994 Statistical Yearbook" would be a useful source for interested individuals or institutions and would fill, to some extent, the lack of information in this area.

For more information about our last years and 1994 studies, please take contact with our "Department of Research, Planning and Coordination" in Ankara.
